

William Carey Christian School

Jane Smith Year 11 2019

Biology Year 11 – Presentation on a Current Issue in Biology (30%)

Cohort Comment

Students researched and presented a summary identifying the relevant scientific concepts to explain why a current effort to monitor biodiversity should be maintained. Reference needed to be made in the summary to any listed, correctly acknowledged sources that were provided.

Each student has received individual feedback on their work and the marking guideline. Please refer to this feedback when making revised learning goals.

[Detailed description of marking guideline/ grade statements](#)

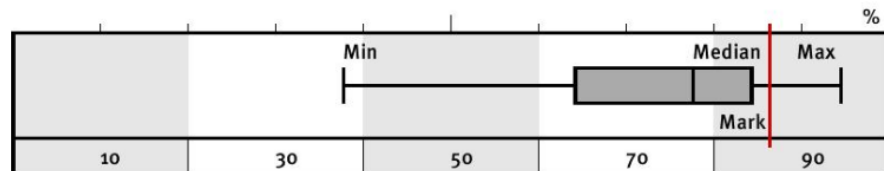

Score: **86.49%**

Mark: **32.00/37.00**

Average: **77.41%**

Rank: **8/33**

Student Reflection

I need to ensure I have details to either support or refute each point. This will mean some further research if I'm missing something.

Student Confirmation

The mark/grade recorded on this progressive report is the same as the mark stated on the assessment task
